

## January 2008

---

Volume 3 Issue 1

Dear Boyz,

2007 has been a year to remember! We grew from two 10MEN tables to eleven 10MEN tables. We have grown from 15 men regularly listening for that living Word to almost 100 men. John Wesley once said *“Give me 10 men (or in our case 100 men) who hate nothing but sin, fear nothing but dishonoring His name, and know nothing at the center of our lives but Jesus Christ and Him crucified and I can change the world!”* As I was praying about God’s plans for this ministry in 2008, He spoke a ridiculous vision in a clear and audible way – a hundred 10MEN Tables in 2008! If this is going to happen it will require a profound move of God – it is far bigger than any of us – it is a God-sized vision.

Having said that, many of us are seeing that God is calling us to “massive action” – we want a full share of whatever God has in mind. I once read a book that said our job as Christians is to figure out where God is at work and simply join Him. **Count me in!**

As I think of all the ways we have impacted our world I am profoundly grateful for each of you. At almost every stop in my recent trip to India I saw evidence of the Waterboyz for Jesus bringing a drink of living water. The new addition in Barakati with two of the water coolers we purchased; Sunalita, a little orphan girl, we have sponsored now for two years; the washing machine in Kamilpong; and the ladies in Calcutta who we helped by funding their micro businesses. They have grown from 45 to 76 in the last year – WOW what a year!

My challenge to each of you is to prayerfully listen for God to speak His plan for 2008 into your lives. Continue to make the little choices that add up to living a life of impact, a life full of Kingdom treasure. Sit down with God and ask Him what little sacrifice you can make on a daily basis that will allow you to provide SCRAPS to a lost, dying, and desperate world. 2007 was an awesome year – praise God! 2008 is going to be an even better year, I’m certain of it! God has given us the privilege of working in his vineyard – let’s seize each hour – I know your heart cry is the same as mine – “one more for Jesus! Just one more!”

Your Brother on the Journey  
Paul

## REPORT FROM INDIA

Saturday morning we all got up and decided that before our day got started we were going to have one more 10MEN table together in India. We SOAP'd 1 John 3 and shared what God was doing in each of us through this trip. It was an anointed time together and we didn't want it to end. We prayed that our last day in India would be fully used by God! A prayer that God answered in the way He always does - YES - YES - YES! Before long our ride arrived and we were off to visit with the 45 ladies who had been launched into micro-businesses by Damascus Road Community Church and the Waterboyz for Jesus. When we arrived we learned that this group had grown to 76 women (Praise God!) so the place was packed. When Rajendra arrived he reminded me I was giving the message. I had totally forgotten this assignment so I immediately began to pray that God would give me 'a word'. Immediately I thought of the

Phoenician women whose daughter was dying with no hope and of the lady caught in adultery and judged worthy of death by stoning. I continued to pray and God gave me the theme these women needed to hear - God is a God of second chances. After explaining that even though there were 3 Paul's in our group of 5 men not every man in America is named Paul I began to preach about second chances. It felt like the women really connected with the message - Praise God - in our weakness He is strong!

After the service the 5 group leaders for the micro business we help start, showed us the goods that the entire group had been making. We, of course, all bought many of the items and talked with the ladies about how they were developing new ideas for products and finding markets to sell their wares. When we were finished Rajendra asked us to meet with a young girl (maybe 18-19 or so). He told us that soon after an arranged marriage and getting pregnant her husband had abandoned her. This left her homeless which led to her getting TB in her spine. She lived in agony, with a little baby on the streets of Calcutta with no hope and no future. Pastor Raju somehow learned about her and got her medical attention (a REAL miracle). Rajendra explained that she was now a house keeper and getting paid in meals. So even though she was getting something to eat she was forced to sleep on the sidewalk outside the gate of the home she was cleaning. He told us that she would learn if the treatment for her TB was helping in a few days. We asked how we could help - and he told us that for \$100 she could rent a food booth and would be able to make enough income to get a place to stay. We prayed over her and I anointed her with oil. As we prayed she had the most beautiful smile on her face - it made no sense! As if we were one man, we all reached for our wallets. Four men dug into their souvenir money and before we left, Punjab had a future. **One more for Jesus - just one more!** Pray for her and all the other "Punjab's" living on the mean streets around the world.

Pastor Raju (a local Calcutta pastor that DRCC fully sponsors) asked if we would pray over his home before we left. We were honored to be asked, so off we went; walking down alley's and through little open courtyards. We arrived at a room of about 10X10 mostly made up of a queen sized bed. I asked if this was where he, his wife, and daughter lived. "No" he said, this is where his family and 11 other people lived - he pointed up to a second floor he had built out of some scrap lumber. 14 people live in a 200 sq foot home (his mother and other family members). When I had asked him earlier in our trip what we could do to help him all he said was - "Brother pray that God will bless my work here. Just pray!" God had impressed a brother to give me \$1000 Spirit money before I left on the trip so earlier in the week I had asked Rajendra - "what else can we do for this man of God?" He explained that if he had a motorcycle he would save hundreds of hours a year in getting around the city. I asked him how much it would cost to buy a motorbike - \$1000 he said! So after praying a blessing over Pastor Raju's home we went to the local Honda dealership (a small shop with two bikes in the display room) and handed this dear man the keys to a brand-new Honda. The smile on that man's face lit up the room! **Praise God.**

God answered our prayers in real and tangible ways every day while we were in India - even that last day in India. Each of us has been changed forever. In December our kids will be able to participate with us in changing 100 kids lives forever. If you and your child decide to give up one present this year (\$25) you can provide a child with a new outfit of clothes for Christmas, a small metal box to keep his few belongings in, and a years worth of shots to prevent many of the common diseases that are prevalent in this area. I don't know what He'll ask of us next, but I do know 'the best is yet to come!' We are praying that God will show us what the next step is for MISSION: INDIA - pray with us won't you?
